

FDIC and the Economy

The FDIC faces many challenges due to changes in the economy, structure of the financial services industry, regulatory requirements, and technology as they affect financial institutions. These challenges require the FDIC to evaluate and periodically modify its business practices on a continuing basis in order to ensure that it is effectively carrying out its mission. When necessary, the FDIC will also pursue regulatory or statutory solutions to these challenges.

2005-2010 Strategic Plan

CareersSurgeDC@fdic.gov

Why is the FDIC a great place to work?

Integrity - FDIC employees adhere to the highest ethical standards in the performance of their duties and responsibilities.

Competence - The FDIC maintains a highly skilled, dedicated, and diverse workforce.

Teamwork - FDIC employees work cooperatively with one another and with employees in other regulatory agencies to accomplish the Corporation's mission.

Effectiveness - The FDIC responds quickly and successfully to identified risks in insured financial institutions and in the broader financial system.

Financial Stewardship - The FDIC acts as a responsible fiduciary, consistently operating in an efficient and cost-effective manner on behalf of insured financial institutions and other stakeholders.

Fairness - The FDIC treats all employees, insured financial institutions, and other stakeholders with impartiality and mutual respect.

CORPORATION PROFILE

The Federal Deposit Insurance Corporation (FDIC) preserves and promotes public confidence in the U.S. financial system by insuring deposits in banks and thrift institutions; by identifying, monitoring and addressing risks to the deposit insurance funds; and by limiting the effect on the economy and the financial system when a bank or thrift institution fails.

An independent agency of the federal government, the FDIC was created in 1933 in response to the thousands of bank failures that occurred in the 1920s and early 1930s. Since the start of FDIC insurance on January 1, 1934, no depositor has lost a single cent of insured funds as a result of a failure.

With an insurance fund totaling more than \$49 billion, the FDIC insures more than \$3 trillion of deposits in U.S. banks and thrifts – deposits in virtually every bank and thrift in the country.

LOAN REVIEW SPECIALIST

A Loan Review Specialist performs credit review functions at examinations, working alongside our examiners, freeing up examiner resources to handle other aspects of our examinations.

Candidates must have:

- An extensive, specialized knowledge and skill in loan credit analysis, including the ability to analyze repayment capacity, financial strength and collateral protection.
- Strong knowledge of loan documentation requirements
- An understanding of laws and regulations governing loan underwriting.
- Comprehensive knowledge of financial institutions and their practices and procedures.
- Strong oral and written communication skills.

This position is a two-year term, with the ability to renew for up to an additional two years.

Candidates must be available for extensive travel and possible relocation.
